In addition to the usual updates on EU policies and legislations, research projects and other CECIMO news, this issue presents an interview with our new president, Jean-Camille Uring, and a 'CECIMO special' on the skills challenge facing our industry. CECIMO magazine is the first and only magazine which discusses European Affairs from the machine tool industry's point of view. Spring 2014 is the 8th issue.

Dear Maude,
thanks for sharing the news! The issue is extremely interesting and I liked a lot the article on DESIGN-MTS. Thanks for this!
Benedetta
