# The Newsbundle

CSR Europe's monthly newsletter

## Welcome to the 307th edition of the Newsbundle

*CSR expectations in the machine tool supply chain include issues on environmental sustainability, workplace safety, fair operating practices, employability and demographic changes.*

## Successful sector collaboration for CSR and supply chain management

Dear Reader

This month we encourage you to read the newest blog post on our [Enterprise2020](#) blog, which features Stefan Crets, Executive Director at CSR Europe.

Stefan Crets shares his thoughts on how multi-stakeholder initiatives increase the collective understanding of sector-wide challenges and solutions, and how, together, stakeholders can develop socially responsible best practices that enhance the visibility and value of CSR. This has for instance been the case in CSR Europe's work with the machine tool and automotive sectors.

Please also take a look at our many upcoming webinars and events.
